Profile

I am an aspiring web developer with a passion for creating responsive, user-friendly websites. An enthusiastic person with strong commitment to build successful relationships and currently learning HTML, CSS, and JavaScript, exploring libraries like React and being introduced to Python. I enjoy building projects, solving problems, and collaborating with others. With creativity and consistency, I aim to grow into a full-stack developer.

Technical Skills

HTML CSS JavaScript React (Beginner) Git & GitHub Python (Beginner) Figma (Basic) Responsive Design

Projects

Portfolio Website: Personal site to showcase skills and projects.

Contact Book App: CRUD app using forms and external API.
